

Camp Kulaqua

Camp and Retreat Ministries

"We provide the opportunities, you provide the memories."

Camp Kulaqua's Outdoor Education program is a combination of learning and hands-on experiences while in God's great outdoors. The curriculum cycles each year and is based on the Adventist Education multigrade curriculum. Our focus is to incorporate textbook studies into real life concepts. Camp Kulaqua's staff applies experiential educational principals, allowing the students to learn by doing, actively engaging and reflecting on those learning moments.

Our goal is to bring learning to life and allow our students to have experiences as they learn more about themselves, others, and God in His creation.

While at Outdoor Education, your students will partake in numerous themed classes as well as enjoy some of camp's traditional activities. Horseback riding, go-carts, rock climbing, the zoo, educational skits and daily worships are just a few of the fun things they'll experience. Chaperones for this class trip are chosen by the teacher of your grade-level and Camp Kulaqua provides the required ratios to adhere to. It's important to note that we are a closed-facility during this program and parent attendance is limited due to the nature of security and the program's function.

We hope your child has an opportunity to attend Camp Kulaqua's Outdoor Education. It's a one-of-a-kind learning adventure that is designed for your child. We hope they leave with a new sense of wonder, positive encounters in the outdoors, and a new fascination with what God has created for us.

Theresa Stride,
Camp Kulaqua
Year Round Programming Director
